Welcome to the GNC Technical Alliance

Wednesday 2nd December 2020 3-4pm (GMT+1)

AGENDA

Introductory remarks	Victor Aguayo (UNICEF)	
Overview of the GNC Technical Alliance	Megan Gayford (UNICEF)	
Case Study 1: Access to Information	Yara Sfeir (UNICEF)	
Case Study 2: Technical support/deployments	Kalil Sagno (DRC Nutrition Cluster Coordinator)	
Case Study 3: Guidance COVID-19 activities	Tanya Khara (ENN)	
Q&A	Andi Kendle & Ben Allen (International Medical Corps)	
Where to reach us	Colleen Emary (World Vision)	
Reflections	Dan Irvine (World Vision)	

Victor Aguayo (UNICEF)

What is the Alliance?

The Alliance is an initiative to support practitioners to improve the quality of nutrition preparedness, response, and recovery, by enabling and providing technical support through multiple channels.

Why was the Alliance created?

nutrition resources and guidance

Connect practitioners to the most relevant

Answer technical questions

Deliver in-depth remote support or in-country deployments

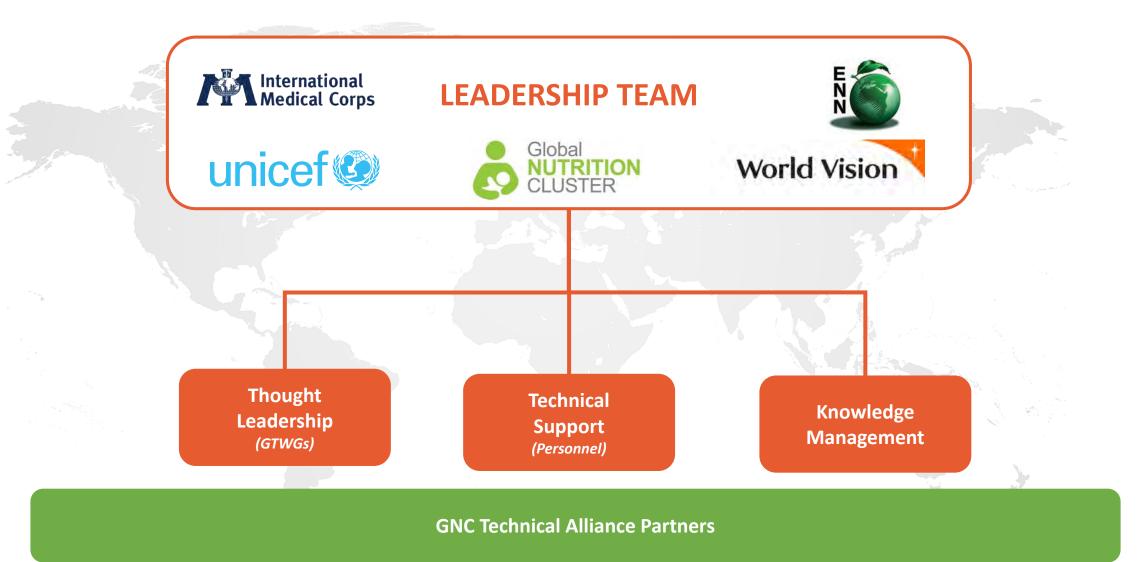

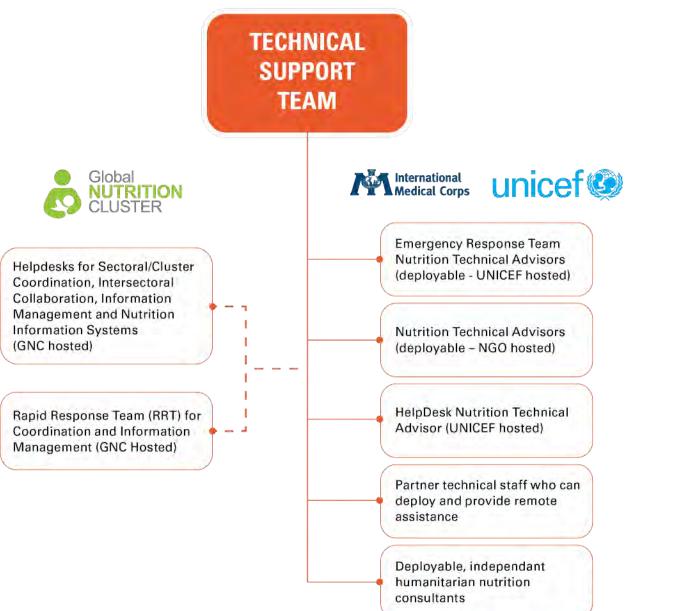

Develop interim guidance or expert advice on emerging nutrition technical issues

Develop and disseminate high-quality learning

How is the Alliance structured?

Nutrition specialists

- ✓ On standby to answer questions
- ✓ Identify relevant resources
- ✓ Provide more in-depth support

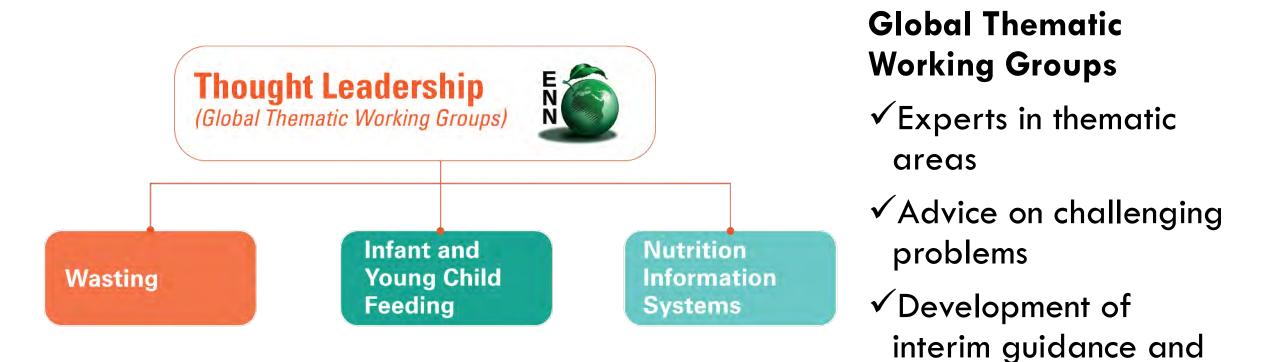

Technical	Coordination
Information	Intersectoral
Management	Collaboration

Faces of the Technical Support Team

program adaptation

Access to information: How Help Desks provide support

Yara Sfeir Help Desk, Nutrition in Emergencies UNICEF

What is the role of the help desk?

- To provide orientation, information and support related to the nutrition response in emergencies
- There are coordination, information management, nutrition information systems and nutrition in emergencies helpdesks
- Access via the GNC Technical Alliance website button:

Request Support

Example of a recurrent request from cluster coordinators and partners

- Cluster coordinators in 2018 were asking for generic terms of references for the technical working groups (TWGs) in country.
- Development of generic terms of reference for the IYCF-E, wasting, nutrition information systems (NIS) and micronutrients TWGs.
- At the onset of the COVID-19 pandemic, TWG Nutrition and COVID-19 ToRs were developed.

Question from the cluster coordination partners and team in Nigeria

<u>Question:</u> 'looking for guidance on conducting a mortality audit in stabilisation centres. If you have such guidance or if you can share best practices?'

• No commonly used tools to conduct a mortality audit exist

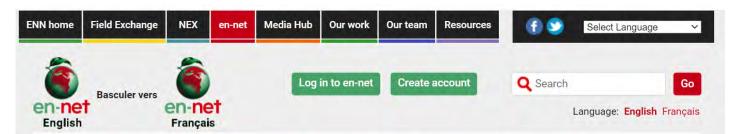

Bring a request to the attention of the Global Thematic Working Groups (GTWGs)

- Bring it to the attention of the GTWG on wasting
- Over 10 partners co-led by ENN and UNICEF
- The GTWG was created by the GNC Technical Alliance last year

Post your question on the en-net platform

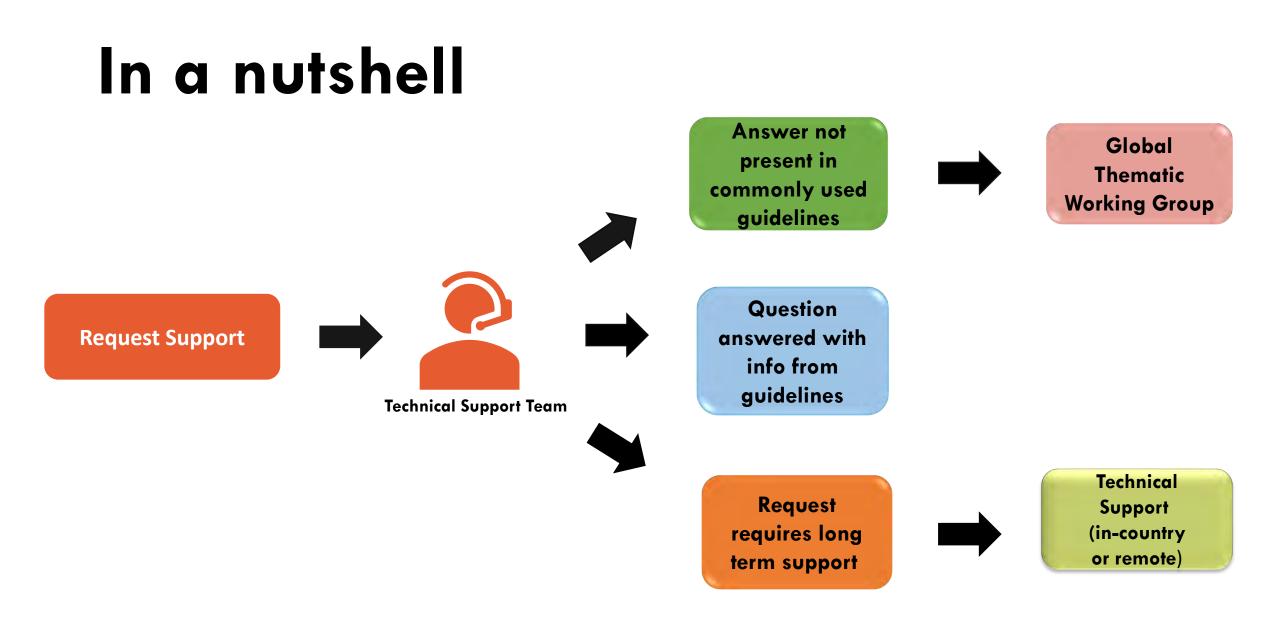

How to conduct a mortality audit in stabilisation centres?

This question was posted the Management of wasting/acute malnutrition forum area and has 2 replies.

Tamsin Walters	The nutrition cluster in Nigeria is urgently looking for guidance on conducting a mortality audit in stabilisation centers. If you have such guidance or if you can share best pactices, please do post them
en-net moderator	here, thank you.

Famsin Walters	Dear all,
Tamsin Walters en-net moderator Forum moderator	In the absence of responses to this question, we've been enquiring behind the scenes and there seems to

• Bring it to the attention of the collective via en-net

How has the Alliance supported the nutrition response in the DRC?

Kalil Sagno DRC Nutrition Cluster Coordination

Overview of technical support to DRC (since 2018)

• Scale-up of IYCF-E programming

• Improving coverage of wasting treatment

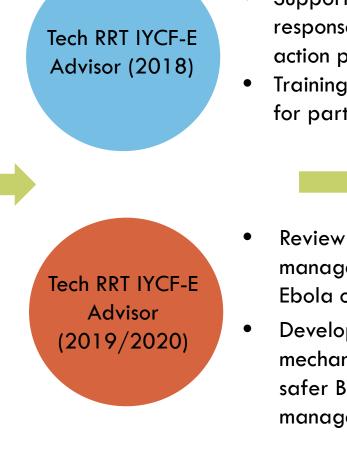

• Strengthening Nutrition Cluster performance

IYCF-E: From theory to practice

- Limited IYCF-E capacity in the country
- IYCF-E not included in Humanitarian Response Plan (HRP)

- Support to IYCF-E ٠ response and action plan
- Training of trainers for partners

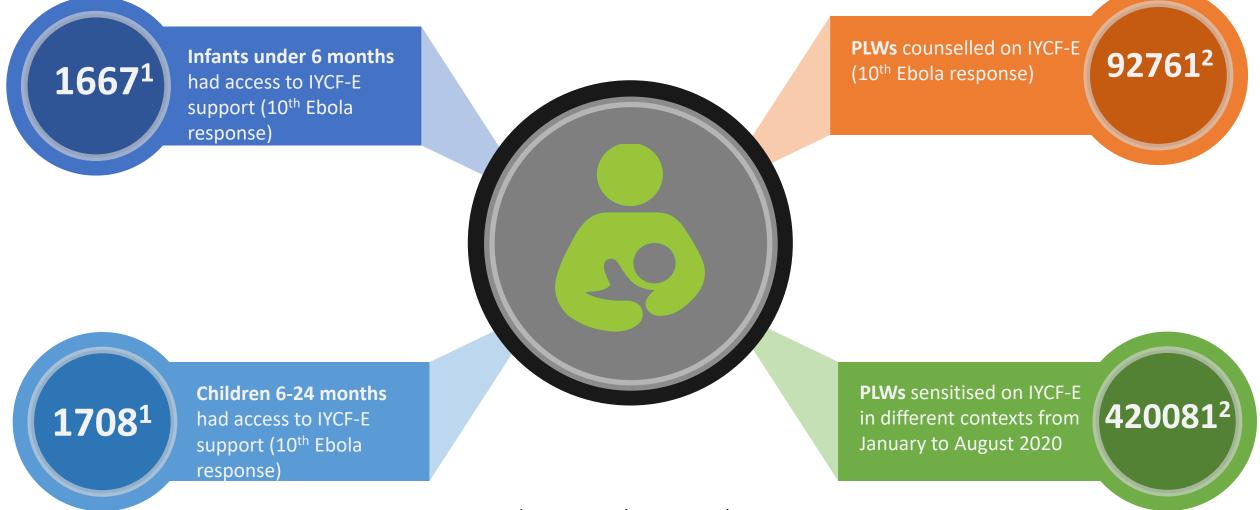

- **Review BMS** management for Ebola cases
- Development mechanism for safer BMS management

Context now

- Integration of IYCF-E in • HRP 2019 and 2020
- 118 nutrition cluster • partners trained on IYCF-E (by IYCF-E TWG)

Achievements enabled with technical support

Sources: ¹OCHA dashboard and ²Nutrition Cluster Ebola Nutrition dashboard

Improving coverage of wasting treatment

1. Key findings

Between 2006 and 2019, 30% of wasted children received treatment¹

2. Possible solutions

Reflection on the simplified approaches to treatment

3. Tech RRT support

- Consultation of stakeholders
- Training 32 people in July 2020
- Tools development

5. Implementation

UNICEF has mobilized funds to implement this simplified approach in 2 health zones.

4. Manual and training

Technical group set up to develop a manual and training for partners.

Strengthening cluster performance

CCPM 2018 report indicated 70% functions were satisfactory or good

GNC deployed a (RRT) IMO between January-May 2019 before recruitment of permanent IMO

ToT for sub-national coordinators with support from the GNC

16 provincial coordinators trained (2019-2020)

Advice | Guidance | Expertise | Learning

CCPM 2019 report indicated 100% functions satisfactory or good

Training of cluster partners

+100 cluster partners trained on cluster coordination (2019-2020)

COVID-19 Related Activities

How the Alliance responded to COVID-19 nutrition related needs

Tanya Khara Emergency Nutrition Network (ENN)

Unpacking the response to COVID-19

Directly supporting field actors Capturing outstanding questions & highlighting key gaps

Supporting the development of rapid guidance Capturing field experiences and programme adap tations

Directly supporting field actors

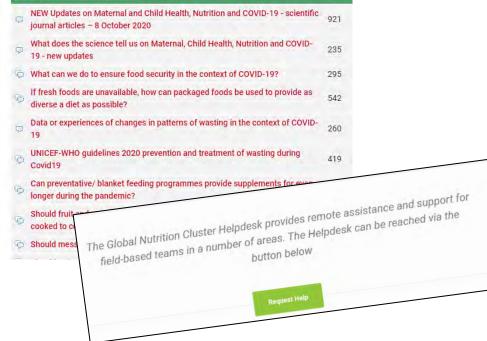

- 1. Support to >10 country teams to adapt the collective nutrition response plans or preparedness plans to COVID-19
- 2. Ongoing IYCF-E support to **Venezuela** and **Ethiopia** adapted to address new needs presented by COVID-19
- 3. Remote Technical support provided to support COVID-19 response in:
 - Myanmar IYCF-E and IMAM
 - DRC CMAM
 - Afghanistan (Action for Development) SBC and Family MUAC
 - South Sudan and Somalia (IMC) SBC

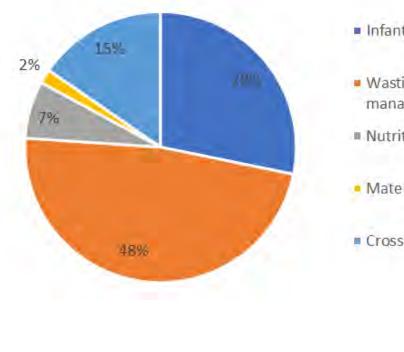

Capturing outstanding questions

Questions related to the following themes:

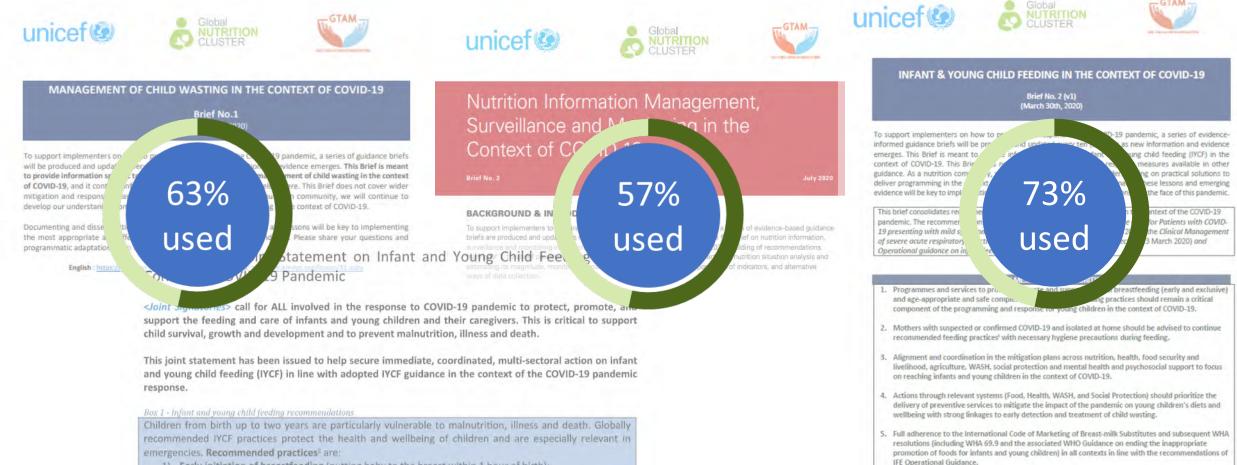

Infant and young child feeding

- Wasting prevention and management
- Nutrition Information Systems

Maternal Nutrition

Cross cutting issues

Supporting the development of rapid/ interim guidance

1) Early initiation of breastfeeding (putting baby to the breast within 1 hour of birth);

Advice | Guidance | Expertise | Learning

6. Donations, marketing and promotions of unhealthy foods - high in saturated fats, free sugar and/or

salt - should not be sought or accepted.
