

GLOBAL NUTRITION CLUSTER TEAM

Support to Nutrition cluster/sector coordination mechanisms at country level

The GNC-CT provides operational support to country nutrition clusters or sectoral coordination mechanisms and global guidance for Nutrition coordination in humanitarian crises. It also functions as a secretariat for the GNC collective with strategic representation in global fora, linking stakeholders and ensuring effective communications. The GNC-CT is led by a Coordinator (Stefano Fedele sfedele@unicef.org) and consists of two units: **a)** Partnership, Programmes and Advocacy, and **b)** Operational Support.

- The **Partnership, Programmes, and Advocacy Team** is led by Anna Ziolkovska aziolkovska@unicef.org and focuses on evidence generation, knowledge management, capacity strengthening, and technical guidance on Nutrition Information Systems (NIS) guiding the Humanitarian Process Cycle (HPC).
- The **Operational Support Team** is led by Rasha Al-Ardhi ralardi@unicef.org and provides operational support to country-level nutrition in emergencies coordination mechanisms through helpdesk support and rapid response team in-country support.

Do you need support or have questions?
